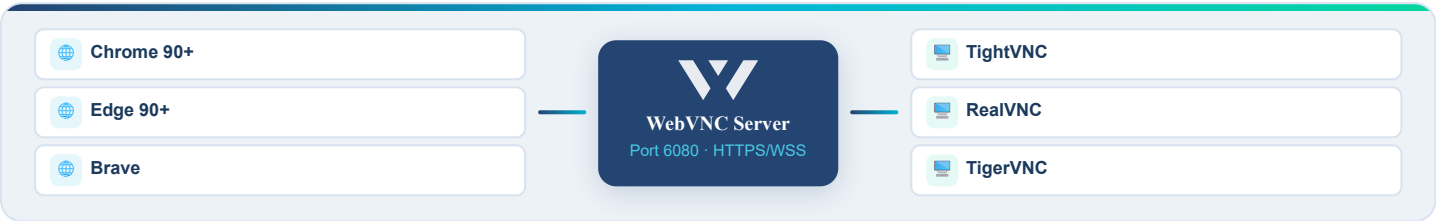
WEB-BASED REMOTE DESKTOP

videowares WebVNC

Access VNC remote desktops directly from any Chromium browser — no plugins, no client installs. Secure HTTPS/WSS encrypted bridge between your browser and VNC servers with multi-user RBAC, audit logging, and Windows Service integration.

- Browser-Based
- Secure WSS
- Multi-User RBAC

SYSTEM ARCHITECTURE



KEY CAPABILITIES

Browser-Based Access
Connect to any VNC server from Chrome, Edge, or Brave. No plugins, no client software — just open a URL.

Enterprise Security
HTTPS/TLS + WSS encryption, JWT auth, bcrypt hashing, CSRF protection, HSTS, and SSRF protection.

Role-Based Access
Admin, Operator, and Viewer roles with granular RBAC. Rate limiting: 10 login/15min, 100 API/min.

Windows Service
Auto-start at boot as a Windows Service with System Tray control panel. Runs headless in background.

Audit Trail
Comprehensive audit logging with configurable retention policies. Track all user actions and connections.

Saved Connections
Store VNC connections with AES-256-GCM encrypted passwords. Admin can share connections across users.

TECHNICAL SPECIFICATIONS

SYSTEM REQUIREMENTS

OS	**Windows 10+ (64-bit)**
RAM	**8 GB minimum**
Browser	**Chrome 90+ / Edge 90+ / Brave**
Server Port	**6080 (configurable)**
VNC Port	**5900 (standard)**
Installer	**WebVNCSetup_x.x.x.xxxxx.exe**

SECURITY & PROTOCOLS

Transport	**HTTPS/TLS + WebSocket (WSS)**
Auth	**JWT (8h) · HTTP-only Secure cookies**
Passwords	**bcrypt hashing · AES-256-GCM**
TLS Certs	**RSA 2048 · 90-day · auto-renew 30d**
Rate Limits	**10 login/15m · 100 API/m · 30 admin/m**
Protection	**CSRF · SSRF · HSTS (1-year) · DNS val.**

DISPLAY & PERFORMANCE

DISPLAY SETTINGS

Quality	**0–9 (adjustable)**
Compression	**0–9 (adjustable)**
Color Depth	**24-bit / 8-bit**
Encoding	**H.264 support**
Scaling	**Fit / Manual / 1:1 (25–200%)**
Options	**Aspect lock · Viewport clipping**

PERFORMANCE & FEATURES

FPS	**Configurable limit**
Cursor	**Multiple modes**
Sessions	**Shared session support**
Compression	**WebSocket compression**
Clipboard	**Text sharing (bidirectional)**
Special Keys	**Ctrl+Alt+Del panel & more**

LICENSING TIERS

FREE

$0

NO LICENSE REQUIRED

Sessions	**5-min limit**
Cooldown	**5-min between sessions**
Watermark	**Yes**
Users	**All roles**
Saved Connections	**Yes**
Audit Logging	**Yes**

LICENSED

RECOMMENDED

License

UNLIMITED ACCESS

Sessions	**Unlimited**
Cooldown	**None**
Watermark	**None**
Grace Period	**7 days on expiry**
Saved Connections	**Yes**
Audit Logging	**Yes**

DEPLOYMENT OPTIONS

- **Installer** — WebVNCSetup_x.x.x.xxxxx.exe (guided setup)
- **Manual Install** — Extract and configure manually
- **Windows Service** — Auto-start at boot, runs headless
- **System Tray** — Quick-access control panel
- **Configuration** — config.json or environment variables
- **Auto-Reconnect** — Configurable reconnect delay

REST API & WEBSOCKET

- **Auth API** — Login, logout, token refresh
- **Users API** — CRUD with role assignment
- **Connections API** — Manage saved VNC targets
- **Audit API** — Query logs with retention config
- **License & Settings** — Manage activation and config
- **WebSocket** — WSS /websockify proxy endpoint

USE CASES

- **VMS Integration** — Display SCADA, BMS, and other non-integrated software within a VMS client. Use WebVNC to surface third-party application interfaces (alarm panels, building management dashboards, industrial control systems) directly inside your video management platform.
- **Remote Server Management** — Administer headless servers, kiosks, and embedded devices from any browser without installing client software.
- **Helpdesk & Support** — Provide remote assistance to end users with role-based access controls, audit logging, and session time limits.

USE CASES (CONTINUED)

- **Security Operations Centers** — Operators can access multiple VNC-enabled workstations from a single browser-based console without switching seats.
- **Multi-Site Monitoring** — Centralize access to remote site desktops over secure WSS connections for distributed teams.
- **Digital Signage & Kiosks** — Remotely manage and troubleshoot signage displays and kiosk machines without physical access.

Ready to Go Remote?

Free mode available · No plugins required · Enterprise licensing
