DATA INTEGRATION PLATFORM

videoXware Data Bridge

Connect access control systems, alarm panels, industrial sensors, SIP intercoms, SQL databases, and IoT devices with your VMS and MQTT brokers. 12+ adapters, persistent queue, zero data loss, sub-second event delivery.

- 12+ Adapters
- Multi-VMS Output
- Windows & Docker

CONNECTED ECOSYSTEM

DATA SOURCES — ACCESS CONTROL & ALARM PANELS

LenelS2 · ZKTeco · Hikvision · Dahua · Honeywell · Bosch · Ajax · Texecom · Paradox

VMS OUTPUT TARGETS

Nx Witness · Hanwha Wisenet WAVE · DW Spectrum IPVMS · Nx Go · MQTT Brokers

SYSTEM ARCHITECTURE

- LenelS2 OnGuard
- ZKTeco BioTime
- Hikvision ISAPI
- Dahua ASI Series
- SIA DC-09 Panels
- SIP Intercoms
- SQL Database (ODBC)
- Asterisk / FreePBX
- ONVIF Access Control Devices
- Modbus · BACnet · OPC
- MQTT Subscriber
- Webhooks

Data Bridge
Queue · Filter · Transform

- Nx Witness VMS
- Wisenet WAVE
- DW Spectrum
- Nx Go
- MQTT Brokers
- Home Assistant
- Node-RED
- SCADA / IoT

KEY CAPABILITIES

Multi-Server Fanout
Every event broadcasts to all connected VMS servers and MQTT brokers simultaneously.

Persistent Queue
SQLite-backed queue survives crashes. Zero data loss during network outages.

Event Rules Engine
Regex filtering with allow/deny/transform actions. Priority-ordered evaluation.

Hot-Reload Config
Add or remove servers at runtime via dashboard. No service restart needed.

Live Dashboard
Real-time WebSocket stream, health indicators, queue depth, adapter status.

High Availability
Active/Standby failover with automatic heartbeat monitoring. Redundant deployment support.

TECHNICAL SPECIFICATIONS

MINIMUM SYSTEM REQUIREMENTS

CPU	**4 cores (3.0 GHz+)**
RAM	**8 GB**
Disk	**80 GB SSD**
Network	**1 Gbps**
OS	**Windows 10/11, Server 2016+**
Container	**Docker (Linux / Windows)**

PROTOCOLS & STANDARDS

VMS	**Nx Open API**
MQTT	**v3.1.1 / v5.0 (QoS 0–2)**
Alarm	**SIA DC-09 (ANSI/SIA-2021)**
SIP	**RFC 3265 SUBSCRIBE/NOTIFY**
Database	**ODBC (MSSQL / MySQL / PostgreSQL)**
PBX	**AMI (Asterisk Manager Interface)**
Industrial	**Modbus TCP · BACnet/IP · OPC UA**
Encryption	**AES-128/192/256, TLS**

SUPPORTED ADAPTERS (12 ACTIVE + 3 INDUSTRIAL)

POLLING · REST

LenelS2 OnGuard

Enterprise ACS via OpenAccess REST API. Card swipes, access granted/denied, door events. OnGuard 7.x–8.x.

POLLING · REST

ZKTeco BioTime 9.x

Card, fingerprint, face recognition via BioTime REST API with automatic pagination.

POLLING · ISAPI

Hikvision ISAPI

NVRs, DVRs, access panels via ISAPI protocol. HTTP Digest auth. HikCentral planned.

POLLING · CGI

Dahua ASI Series

AccessControlCardRec via CGI API. Digest auth. ASI3/6/7XXX and standard CGI devices.

LISTENING · TCP

SIA DC-09 Receiver

Alarm panels — Honeywell, DSC, Bosch, Ajax, Texecom, Paradox. AES-128/192/256.

SUBSCRIBE · ONVIF

ONVIF Access Control Events

PullPoint subscription. 470+ manufacturers: Axis, Bosch, Hanwha, Dahua, Hikvision, Vivotek.

SUBSCRIBE · SIP

SIP Direct (Intercom)

SUBSCRIBE/NOTIFY for 2N, Axis, Aiphone, Grandstream, Doorbird. Door events, card swipes, tamper, call state.

SUBSCRIBE · AMI

Asterisk / FreePBX

Listening via AMI TCP port 5038. Call lifecycle, DTMF door-unlock, endpoint registration. ~60% PBX market.

POLLING · ODBC

Generic SQL Database

Polling MSSQL, MySQL, PostgreSQL. Vendor presets (Honeywell WIN-PAK). Custom SQL queries for any backend.

INDUSTRIAL

Modbus TCP

FC03/FC04 registers from PLCs. INT/UINT/FLOAT types, change/threshold triggers.

INDUSTRIAL

BACnet/IP · OPC UA

Building automation (HVAC, fire, lighting) and SCADA/industrial OPC servers.

PUSH-BASED

Webhook Profiles

HTTP POST ingestion with dot-path and template payload transformation.

VMS INTEGRATION

- **Nx Witness** — Network Optix flagship VMS platform
- **Wisenet WAVE** — Hanwha Vision's enterprise VMS
- **DW Spectrum** — Digital Watchdog IPVMS
- **Nx Go** — Cloud-first mobile VMS
- **Other Nx-based VMS** — Compatible via shared API

IOT & DEPLOYMENT

- **High Availability** — Active/Standby failover with heartbeat monitoring
- **MQTT** — Mosquitto, HiveMQ, EMQX + TLS
- **Home Assistant** — MQTT sensors & automations
- **Node-RED** — Workflow automation via topics
- **Windows** — Installer, auto-start, tray app
- **Docker** — Container + Compose orchestration
